

Holistic Health & Wellness Fair

Presented by Wellness Centered LLC

Hello!

We are very excited to announce **the 1st Annual Holistic Health & Wellness Fair** presented by Wellness Centered, LLC taking place on June 25th at Otsiningo Park, in Binghamton, NY.

And...we would love your **HELP** in making the vision of increasing the **HEALTH, VITALITY, AND WELLNESS** of our community a reality by joining us.

As we know, there are many paths to health and wellbeing.

As a healthcare provider, one thing I do know is that **people in our communities are individuals with varying health and wellness needs**. To meet these needs, I believe we need to provide and expose our communities to all of the options- traditional medicine, eastern medicine practices, alternative and complementary modalities, as well as the most recent evidence-based research.

Exposure to all of the options for good health will benefit our community!

Unfortunately, the residents of our community have limited knowledge or access to the less mainstream healing modalities available in our area.

In an effort to change this, we are planning on welcoming over 100 vendors including alternative medicine practitioners, traditional medical services, community services, various artisans and craft vendors, and food and beverage merchants. In addition, we are planning an entertainment/ live demonstration space.

Please consider joining us at this amazing event. We have included a vendor application...please feel free to share!

“Our mission is to create a cohesive community that is focused on enhancing the health and wellness of its residents and families through holistic centered practices and education.”
